

THE KAMEHAMEHA SCHOOLS
Office of the President.

Mar. 29, 1929

Mr. Drummond:-

I wish very much to thank you for your carefully written letter of Mar. 22nd giving us your opinions concerning things which would improve our courses in Machine Shop Practice. All of the items you suggest will have our very careful consideration and I hope that we may confer with you from time to time as points come up in which you can advise us.

May I ask if you think there are boys above the 9th Grade in your Shop who may not be able to become good machinists? If so, these cases should have our consideration at once.

Is it your opinion that we are trying to turn out too many machinists for the demand here in the Territory?

We have very greatly appreciated your assisting us in the Machine Shop. Mr. Wilkins is now able to resume his work and will begin as of April 1st. We shall continue your pay to round out a month, which I believe would mean that it would terminate April 6th. I hope this will be satisfactory to you.

Aloha and best wishes to you and Mrs. Drummond.

Yours very truly,

Frank E. Midkiff
