

## HAWAIIAN AIR DEPOT

Luke Field, T. H.

June 6, 1934.

In reply refer to:

TO WHOM IT MAY CONCERN:

The bearer, Mr. Robert Drummond, has been employed by this Depot for a number of years in the capacity of Master Machinist and Assistant to the Foreman of our Machine Shop. He is taking an extended vacation on the Mainland during this summer and has expressed a desire to visit a number of Mainland depots and aircraft factories for the purpose of familiarizing himself with the latest shop practices and machinery in use in the continental United States. Any information and data obtained by Mr. Drummond would be extremely valuable not only to himself but to this organization and any courtesies extended to him by Mainland activities or aircraft factories would be deeply appreciated by the undersigned.

  
E. R. PAGECaptain, Air Corps  
Engineering Officer
