Dearest Lois

Yes didn't we have some winter we had 20" of snow here and the roads between here and the coast were blocked several times during the storm, yes you sure had a grand chance to do a lot of winter sports, all we did was take a walk on the snowy roads and clear a path out to the wood pile. The snow stayed with us for 10 days of course the mountains tops are still white.

Monday this week we went to Indio, to the Riverside County Fair and Date Festival, it was very good and the weather was grand. Tuesday Mr & Mrs. Ingram came up from Pomona, that's the first time they have had a chance to leave their orange grove since Henk's Jack Frost gave them a bad time all winter. They think that they have

saved 75° of their oranges

Got 7 Barney havint showed up yet
I have looked for them every weekend
Had a letter from Kay, from Phoenix
Arizona, she is working there, didnt
think much of the cold spell, I guess
she will have it hot enough before
the summer is out

Before it gets too hot in about
another month from now I plan on
taking a trip into Arizona for about
two week and perhaps do some fishing
and visiting a lot of old friends
around Glendale and Miami

I wonder if you sold your car and
how you like walking for a change
you never mentioned your coming tour
Norine says if you dont use your
Postum jars she could use them for fruit
as she can get caps for them, Perhaps we
will see you before the canning season arrives
Norine sends her love. Hoping this finds
you both well and happy.
Love Dad
